EXPERIENCE

Tracta Limited, NewZealand — *FullStack Developer*

January 2020 - present

Responsibilities

- Responsible for all web design processes.
- Developed various projects utilizing ES6, Sass, React Native, Native script, React.js, Vue.js, Angular 2+, Typescript, Node.js, Laravel, WordPress, .Net Core API.
- Use of library like Jest for unit testing
- Sometimes involved in the design process using Adobe XD.
- Manage multiple projects with a team of backend engineers, QA, designers, animators, PO from planning to project launch.
- Built and maintained reusable components and codes in Javascript frameworks projects.
- Support all our cloud-based applications (EC2, RDS, load balancers) using Amazon AWS.
- Champion the development of most of John Deere's websites.
- Champion the development of farm-side frontend.

Freelancing

- Champion back-end, frontend, REST-API, and DevOps deployment to AWS EC2 and Postgresql using docker for some side projects like Afrogane.com a music app (music streaming app for African Afrobeats songs), soon startup app TTredle.com for logistics in NewZealand.
- Developed a ReactJS based application for Inventory management. Created node services and stored data on PostgreSQL.
- Implemented continuous integration and delivery
- Built new API services for external partners

Betsson Group, Malta — *FrontEnd Developer*

APRIL 2019 - December 2019

Responsibilities

- Maintained and built various projects utilizing the power of vue.js, typescript,react.js, redux and es6

TECHNICAL SKILLS

JavaScript (ES6+, React.js, Vue.js, Angular, Node, TypeScript)

Php 7, Python, C#, Java.

.Net MVC API, .Net Core,Spring Boot, Express.js

MySQL, MSSQL, MongoDB, PostgreSQL

Testing using Jest

Vuex, Redux, RXjs

UI/UX: Adobe XD, Illustrator, Photoshop, Indesign

CSS (Sass, Style guides, Documentation)

Testing (Jest, Jasmine, Mocha)

Continuous integration, Continuous Delivery CICD (GitLab CICD pipeline, Travis CI, Jenkins, Docker, Kubernetes, Cucumber, Selenium, Bamboo)

REST APIs

Git, GitHub, Bitbucket, Gitlab

Linux, Mac OS

Development environment (Virtual Box, Vagrant, Docker)

- Restructure the workability and flow of our horse racing mobile application
- Maintained and updated various angular.js, backbone and angular 2+ legacy apps.

Gaming Innovation Group, Malta — *FullStack Developer*

SEPTEMBER 2018 - APRIL 2019

Responsibilities

- Developed various projects utilizing ES6, Sass, Node, ionic, Angular 2+ and WordPress, .Net Core API.
- Managed multiple projects with a team of backend engineers, QA and PO from planning to project launch.
- Utilized Javascript, React, Sass, Webpack, git for affiliate gaming sites and IGaming regulatory sites.
- Built and maintained reusable components and codes for Javascript frameworks projects.

Zheta Int'l, Malta — *Lead Developer*

JULY 2017 - SEPTEMBER 2018

Responsibilities

- Improve client's workflow by incorporating tools like Webpack, Gulp, ESLint, Prettier, Jest, and Ansible.
- Ensure that the developing codebase conforms to best practices with regard to coding standards.
- Development of data-driven websites using MODX, HTML5, CSS3, Jquery, MySQL.
- Development of Rest APIs using Node.js (Express.js)
- Delegate and monitor work assigned to teammates using the Agile Methodology whilst gaining experience from the Scrum Master.
- Championed the development of web and mobile applications like https://www.pmc.tv (Persian Music), https://www.portomasolive.com.

Gratia Spiral Empire, Nigeria — *Developer*

2012 - 2015

Responsibilities

- Resolved design issues through root cause analysis and performed data cleanups.
- Coordinated with a team of UX designers to create a new web content management system.
- Maintaining, optimizing, troubleshooting, and improving websites.

ACHIEVEMENTS

Functional Programming

Object Oriented Programming

Agile Methodology (Scrum)

AWS, Firebase

OOP, Debugging, Performance Testing, TDD

Search Engine Optimization (SEO)

Webpack, Gulp,

Mobile Development Stacks

OTHER SKILLS

Excellent communication skills

Team player

Fast Learner

Keen to details and easily adapt to better changes.

Keen to learn and adapt to new technology

Ability to work under pressure

Excellent in working in a multicultural environment

LANGUAGES

English, French

REFERENCES

Kurt Sandtmann - General Manager of Tracta Limited New Zealand.
(kurt@tracta.com)

Jason Malia - CEO Zheta International Malta jason@zhetainternational.com

- Speed up our mobile apps load time by 50% by replacing gulp with webpack.
- Implemented a new responsive, mobile-first approach which increased mobile traffic by 20%.
- Lead a team of more than 10, which includes developers, designers and POs.
- Participated in representing Middlesex at a robotics fair in Europe.

EDUCATION

Middlesex University, UK — *BSC Hons Computer Science and Systems Engineering*

AUGUST 2016 - SEPTEMBER 2017

Aptech Computer Institute, India — *Advanced Diploma in Software Engineering*

FEBRUARY 2012 - SEPTEMBER 2015

IPMC, Ghana — *Diploma in Hardware and Networking*

October 2009- SEPTEMBER 2011

TRAINING PROGRAMS

Data Structures, Algorithms and Graph Theory— *Udemy*

FEBRUARY 2020

Docker and Kubernetes: The Complete Guide — *Udemy*

FEBRUARY 2019

Modern React and Redux — *Udemy*

MAY 2018

The complete Vue.js Developer Course— *Udemy*

SEPTEMBER 2018

Advanced Javascript Concept— *Udemy*

JUNE 2017
